Hiromi Stringer uses drawings to create an installation of a traveling exhibition from a fictional museum, the Umeyama Time Teleportation Museum (UTTM). The focus of UTTM is to showcase achievements and influences of the first time-traveler Shoei Umeyama, who time travels between the Japan of 170 years ago and various locations of the world in the 21<sup>st</sup> century. This Spring 2023, UTTM is proud to show Umeyama's drawings, including 136 dog drawings and several reports he created in the 21<sup>st</sup> century both in the US and Germany. These works and reports by Umeyama (and Hiromi) are the somewhat distorted mirrors of the 21<sup>st</sup> century, providing glimpses into the world we live today.
